Support & FAQ

Thank you for purchasing this HTML Template! I'd be glad to help you if you have any questions relating to this theme. No guarantees, but I'll do my best to assist. If you have a more general question relating to the themes on ThemeForest, you might consider visiting the forums and asking your question in the "Item Discussion" section.

How to add another section?

Add this:

```
<li><a href="#section-number">Section-Name</a>
        <div class="menu-line">&times;</div>
</li>
```

to the main "nav".

Then you add your section where you like, but remember to renumber all the other sections as well as the section links in the nav.

```
<section class="section" id="section-number">
        <div class="container clearfix">
                CONTENT HERE
        </div>
</section>
```

How to add another column with text?

Here you can choose between 1/3, 2/3 or 3/3 columns.

Keep in mind that all columns except 1/3 resize on smaller screens, you can check it by resizing your browser window.

How to change the amount of columns per row in the portfolio and about section?

Here you can choose between: desktop_items_4 and desktop_items_3, on tablet there are always 2 columns displayed and 1 on mobile view.

How to change the email address to which emails are sent from the contact form?

Find in contact.php: $address = 'hello@email.com';

There you can enter your email address. A few lines further down, you can also change the text which is displayed in the email.

Why are the ajax loaded project detail pages not showing?

They sometimes only show when uploaded to a server, depending on your browser and operating system.

Need more (social) icons?

You find the codes in styles.css from line 361 (social) and line 244 (standard) on. If you need more icons added to the font, just drop me an email.

If you need help, just email me over my profile page!
